DEPLOYMENT OF THE NMVS RELEASE 14 AND DOWNTIME IN THE FINNISH NMVS PRODUCTION ENVIRONMENT ON MAY 15TH, 2024

There is a downtime window starting at 22:00 CEST on 15th of May and ending at approx. 06:00 CEST on May 16th in the production environment of the Finnish NMVS. OBPs and Finnish end users may experience connection errors concerning activities with the Finnish NMVS (e.g. the uploads of the product master data and the decommission transactions).

We apologize for any inconvenience caused.

RECALL AND WITHDRAWAL IN EMVS - NORDIC RECOMMENDATIONS

The Nordic NMVOs have jointly published recommendations on how pharmaceutical companies, wholesalers and pharmacies best handle a recall or withdrawal through the EMVS to further add efficiency, quality and value to the supply chain as well as strengthen patient safety.

PLEASE ENSURE THAT YOUR ANNUAL FEES ARE PAID

We still have few open annual fees. If your company has an outstanding invoice, you'll receive an email from us this week.

We would like to remind that not paying the annual fee is a violation of the contract with FiMVO. Therefore, FiMVO informs EMVO all companies that have disregarded invoices as this is also a violation of an OBP contract with EMVO. FiMVO reserves the right to take further action and inform the National Competent Authority of contract violations.

As always, you can contact us
